

## **Decode Labs Project 3**

*Submitted By: **Thariz Hamza***

*Internship: **Prompt Engineering Intern***

*Organization: **Decode Labs***

*Batch: **2026***

### **Project 3: Context-Anchored Answering (RAG Basics)**

#### **Objective:**

*To build a closed-book question answering system that only uses a provided reference document and prevents hallucinations through strict constraints.*

## **Prompts Used:**

### **PROMPT 1:**

#### *REFERENCE DOCUMENT*

##### *Paragraph 1:*

*DecodeLabs was founded in 2023. The company specializes in AI education and industry-focused training programs.*

##### *Paragraph 2:*

*The Prompt Engineering Internship lasts for 8 weeks and includes three major projects.*

##### *Paragraph 3:*

*Students receive a completion certificate after successfully finishing all assigned projects.*

### **PROMPT 2:**

*You are a Closed-Book Question Answering System.*

#### *Rules:*

- 1. Use ONLY the information provided in the REFERENCE DOCUMENT.*
- 2. Do not use your own knowledge.*

3. If the answer cannot be found in the document, reply exactly:  
"Information Not Found"

4. Every answer must include the paragraph number used.

5. Never guess or assume missing information.

### REFERENCE DOCUMENT

*Paragraph 1:*

*DecodeLabs was founded in 2023. The company specializes in AI education and industry-focused training programs.*

*Paragraph 2:*

*The Prompt Engineering Internship lasts for 8 weeks and includes three major projects.*

*Paragraph 3:*

*Students receive a completion certificate after successfully finishing all assigned projects.*

## **PROMPT 3:**

*When was DecodeLabs founded?*

## **PROMPT 4:**

*How long is the internship?*

## PROMPT 5:

*Who is the CEO of DecodeLabs?*

## **CONCLUSION:**

*This project demonstrated how prompt engineering can restrict an AI model to use only provided context. By applying negative constraints and citations, hallucinations were reduced and factual accuracy was improved.*
